MN CD E&T Aim

To **fulfill Nations' and NATO's CD E&T shortfalls** identified in the GAP analysis that will be performed in cooperation with ACT, in order to **support Nations and NATO to comply with NDPP Capability Targets**

Added Value

- **Offers Allies CD E&T Activities** (from strategic to technical level) not available through NATO, National, bilateral or commercial arrangements;
- **Contributes to NCI Academy Capability Building** – links ACT Gap Analysis with NCI Academy future activities;
- **Promotes NATO Certification** –high quality of courses and interoperability of experts;
- **Multinational Character** – greater flexibility and benefits with participation of EU, Industry and Partners;
- **Open and Inclusive** – New members could join at later stage.

MNCDE&T Members
